1. In-Person Option

For our in-person option, LSR7 will select the instructional model from which all LSR7 “in-person” students will learn based on Jackson County Health Department guidance/orders. The way we learn could change throughout the fall due to evolving guidance.

**In-Person**
- Students report to school each day.
- LSR7 enforces mask-wearing and social distancing measures in alignment with Jackson County Health Department orders/guidance.
- LSR7 implements preventative health and safety protocols.
- Families commit to this instructional model for a semester.
- Selecting this option indicates the understanding that in-person students will learn in one of three scenarios: traditional in-person, hybrid, or virtual, based on JCHD guidance.
- Parents understand the district may need to transition between instructional models in order to adhere to evolving JCHD guidance.
- Special education services, accommodations and modifications will be provided, as appropriate, for students per their IEP.
- 504 accommodations will be provided, as appropriate, for students per their 504 Plan.

**Hybrid**

*Initiated if JCHD mandates social distancing*
- Students are assigned to Group A or Group B and attend school in-person two days a week, either Monday/Tuesday or Thursday/Friday.
- All students receive instruction virtually on Wednesday through Schoology while buildings and buses are deep-cleaned and sanitized.
- Students participate in independent work from home on two remaining days.
- Six feet of social distancing while learning in buildings, as per JCHD guidance.
- LSR7 implements preventative health and safety protocols.
- Families are sorted into A and B groups by last name; district will work through extenuating circumstances with families.
- Special education services, accommodations and modifications will be provided, as appropriate, for students per their IEP.
- 504 accommodations will be provided, as appropriate, for students per their 504 Plan.

**Virtual**

*Initiated if JCHD or government officials close schools*
- Can be utilized district-wide or for specific schools/classrooms per Jackson County Health Department guidance.
- Students will access learning and assignments using district-issued Chromebooks and the Schoology platform in the event of a building or district-wide closure scenario.
- The district will continue to monitor and receive feedback from students, parents and teachers to guide us in improving and refining our virtual learning plans.
- Will involve more rigorous expectations than emergency spring 2020 virtual learning.
- Special education services, accommodations and modifications will be provided, as appropriate, for students per their IEP.
- 504 accommodations will be provided, as appropriate, for students per their 504 Plan.

2. All-Online Option

**R-7 Online Academy**
- Will expand prior to the 2020-21 school year as a pre-K-12 option.
- Grading and instruction will be the same as traditional in-person instruction, but delivered through Schoology/Edgenuity.
- Students commit to this instructional model for a semester.
- Curriculum aligns with Missouri Learning Standards set forth by Missouri Department of Elementary and Secondary Education.
- Students can participate in extracurriculars/athletics if district/JCHD policies allow for those activities and if the student meets eligibility requirements.
- District will provide advanced secondary studies options for as many courses as possible.
- Elementary courses include blend of real-time and self-paced learning.
- R-7 Online is not available for Summit Technology Academy courses.
- Special education services, accommodations and modifications will be provided, as appropriate, for students per their IEP.
- 504 accommodations will be provided, as appropriate, for students per their 504 Plan.
- Special program courses for students on IEPs will also be available, as appropriate.
